# The Natural Truth with Michael Graham

"My lovely Bride the Warden and I got some bad news not long ago, Our house needed a new roof.

Then we got some worse news, after one, then two, then three different roofing companies came out and gave us estimates, and we said this is just awful. But then I met Steve who works for CTBA Siding and Roofing, and he introduced me to Andy, the owner, the guy who started CTBA. Andy came to my house and we spent 40 minutes going around my house talking about the roof, the chimney, the flashing and even the gutters. He showed me all the problems and then gave me the solutions that CTBA would use to correct them. When we were in the kitchen discussing the situation, Andy was so smart, so Focused, and so excited about his work, my wife pulled me aside and said, "I want him.. I don't care if he costs more, I WANT THIS GUY TO FIX OUR ROOF!" That's when we got the Great news, his price was 10-15% less than the lowest price given by the other 3 guys we had looked at.

CTBA replaced our roof, fixed all the problems and we are thrilled! From the courtesy of the guys on the job, to the fact that they are recognized by the better business bureau, and that they have been around for years.. They are licensed and Insured and do things by the book! As good an experience, getting a new roof can be, that's the experience we had using CTBA Siding & Roofing! If you have any doubts about your roof- Call CTBA Siding and Roofing because **WE** have **NO DOUBTS** about the quality of CTBA."

"Live on air Message about CTBA—November 20th 2006 During Michael Grahams' The Natural Truth radio broadcast heard on WTKK 96.9 FM talk in Boston, Ma"

This is an uncompensated endorsement
